

Your bill explained Notifications and ways to pay

Wir bieten **Komfort.**

STADTWERK
W I N T E R T H U R

Your bill – plain and simple.

Your bill contains not only a summary sheet listing the total costs of your energy and water consumption as well as the services and the charges. On the back you will find valuable tips on **tariff times, emergency service and moving house**.

You should always quote your personal **customer number** when contacting us about your energy bill (by phone, online form, e-mail or in writing).

Klimafonds Stadtwerk Winterthur

If you support the Klimafonds Stadtwerk Winterthur a voluntary contribution of 2 Rappen per kilowatt-hour of electricity used will be shown here.

CO₂-Fussabdruck Ihres Stromverbrauchs

Auch erneuerbarer Strom verursacht CO₂-Emissionen. Diese Angaben zeigen den Fussabdruck Ihres Stromverbrauches in Gramm CO₂ (g CO₂-eq). Mehr zu den Stromprodukten, die die Energie- und Klimaziele Winterthurs unterstützen, auf stadtwerk.winterthur.ch/strom

	Menge	CO ₂ -Fussabdruck	CO ₂ -Emissionen
Stromverbrauch	647 kWh	6.90 g CO ₂ -eq/kWh	4'464.30 g CO ₂ -eq

7 Water

The consumption charge is the price per cubic metre (m³) of water used. This is billed on a quarterly basis. The service charge is calculated on the basis of the number and kind of connected consumers (e.g. sink, WC, etc.) and is charged in (l/min/yr) on a quarterly basis. The building charge is levied once a year together with the sewage charge and charged to the property owner.

8 Sewerage

The **sewage charges** consist of a basic charge and quantity price. Both are charged by Stadtwerk Winterthur on behalf of the municipal civil engineering department. The basic charge is collected annually in autumn. For further information please visit: tiefbauamt.winterthur.ch.

9 Rubbish

The **basic waste fee** covers the costs of infrastructure, green waste collection, waste paper collection, collection points, etc. Stadtwerk Winterthur charges the fee on behalf of the Department of Building and Mobility. If you have any questions on this please contact: municipal building department, "Abfalltelefon" 052 267 68 68 or abfall@win.ch.

15 Meter

The meter measures the energy or water consumption. Each meter has its own number, which is written on the meter.

16 Point of measurement

The point of measurement is an internationally valid designation for each product measured. It indicates the location where electricity, gas or water is obtained. The point of measurement remains the same even if the meter or customer changes.

17 Consumption

Consumption indicates how much energy and/or water has been used in the time period being measured.

18 Carbon footprint of your electricity consumption

Here you will find information on how much CO₂ your electricity consumption generates. The emissions depend on which electricity product you have purchased. The carbon footprint is expressed in grams of CO₂ equivalents (g CO₂-eq). This unit of measurement standardises the climate impact of different greenhouse gases.

Ways to pay

Stadtwerk Winterthur lets you pay your energy bill in three different ways:

- Payment on account
- E-mail invoice
- Electronic bill (E-Rechnung)

Payment on account

You will receive a bill printed on paper in the post and can then pay this within the payment period shown on the bill by a payment order at the post office or a bank. Unless you explicitly request a different method of payment you will be sent your bill in this way.

E-mail invoice

Order your energy bill to your e-mail inbox. This allows you to control the bill online, save it or forward it. You also save paper.

Electronic bill (E-Rechnung)

To pay by e-billing, you will need to log in at least once to your bank's e-banking system or through your PostFinance account. This will allow your bill to be delivered electronically and will save paper. Check the e-bill on your electronic platform (e-banking) and approve it for payment. You will find more information at e-bill.ch

Direct debit system (LSV)

Your energy bills are always paid on time if Postfinance's "Debit Direct" or the direct debit system of the Swiss banks are used. Your account is debited automatically on the day the invoice is due for payment. If you want to receive your invoice by email, you will also save paper.

Designation	Delivery	Payment
E-mail billing	Electronically by e-mail	Online banking, payment order, direct debit
E-billing	Electronically on the online banking portal	Direct approval on the online banking portal
Paper billing	Post	Direct debit, post/cashier's window, online banking, payment order

Rates are set by the political authorities of Winterthur. The provisions of the relevant regulations and decrees shall apply.
